

EUMUNDI

The village of Eumundi is best known around the world for its Wednesday and Saturday markets that are held in the centre of the village, come rain or shine, all year round. The reputation of the markets has been built on the quality of the individual craft items that are at the heart of the market. But of course there's quirky and beautiful manufactured things too and a marvellous atmosphere partly created by the iconic, towering heritage-listed trees that line the main street, Memorial Drive. In fact the love of trees and all things green a long time ago led Eumundi to call it itself the arbour town.

It's the historic streetscape and the quaint and vibrant atmosphere of the village that endears Eumundi to the many thousands of visitors who flock to the beautiful district each year. There's a wonderful collection of restaurants and cafes, there's art galleries, wineries, a historic walk and shops with a difference. The best thing of all is the friendliness of the locals who are only too keen to share their love of the area with you.

If you feel like a day trip from Eumundi, the beach and Noosa's national park are less than half an hour away. There's chances to play golf, to visit fascinating hinterland towns and lots of scenic attractions. For information on the district, its past and present, visit Discover Eumundi Heritage and Visitors Centre.
